

The Braille printer with the lowest noise in the worldwide market.

Gemini Basic

*Gemini Basic is an efficient Braille printer at its quiet operation - emboss Braille by pushing up pins calmly.

*Just to connect to a personal computer, then it starts to emboss the Braille.

*No need to be annoyed with that conventional "Loud noise" any more.

*The noise level of the Gemini Basic is the lowest one that you have never experienced.

It is the "Best choice" for the uses at home & office.

*Double sided printout is also possible.

*With the very simple and ease of use, blind and visually impaired people can operate just with their fingertips.
