

Portable and Pocket Sized Take it wherever you go!

Braille Display

# SEIKA MINI

The Seika Mini is a Braille display with a 16 /24 cells Braille display and Braille input keys. Its lightweight, compact design makes it easy to carry.

It has a built-in rechargeable lithium battery, allowing you to create Braille notes on the go and read Braille data stored on an SD card, making it ideal for extended use.

In addition to being used as a note-taker, it can also be connected to a PC via Bluetooth to operate the PC and display information in Braille, making it easy to use.

- 6 cells Braille display with note taking features
- Light, compact and portable
- Built-in rechargeable lithium battery with up to 10 hours of battery life
- Perfect for note taking and reading Braille data from a SD card while on the go
- Practical features such as an integrated clock and calculator
- Easy access with wireless Bluetooth connectivity - allows you to operate your computer from and display information on Seika Mini
- Bluetooth USB adapter included
- Supports international screen reading software
- Compatibility with Mac, iPhone and iPad
